RESUME / ABOUT US

Marcus O'Reilly Architects is a small award winning practice with a strong design focus. We provide a high level of personal service and engagement. Our work ranges from new homes and renovations to commercial buildings and public commissions.

We work with clients to develop their brief. We look for your ideas as our starting point, we then apply our creative and practical expertise to create a fresh, tailor-made approach.

Our work demonstrates a strong commitment to good design. In addition, our practice offers the following expertise:

- Thorough knowledge of the planning approval process, including its vagaries,
- Realistic costing and cost-controlling strategies, ensuring projects come within their targeted budgets
- Sound understanding of building techniques and materials
- Interest in expanding knowledge and application of innovative techniques, particularly in the area of sustainable design.
- tight documentation
- effective contract administration.
